

Lichen Sorrel

Over the last 18 months I have been working as a snowboard instructor between New Zealand and Japan. This has allowed me to stay near the mountains year round and put time into shooting as much photo and video content as I can in the places I love. Over this time I have been building on my skills and creating a portfolio of work which captures the excitement of visiting new places and the thrill I get from participating in and being around skiing and snowboarding.

- **Photography Dunedin midwinter carnival**

For the 2023 Dunedin Midwinter Carnival I was briefed to capture some behind the scenes to showcase the otherwise unseen hard work put into the event. These images were also featured in the Otago Daily Times.

- **B camera operation, editing assist**

In August 2023 I helped in shooting a part of a short video in the lead up to the Symphony on snow event at Coronet Peak. This involved working with the hired media team, helping to coordinate the riders on the mountain and some editing afterwards.

- **Editing**

Creating edited, personalized short videos with existing media for participants in the 2023 Alpine trust camp at Coronet Peak. I was provided a library of photos and videos to create 12 short form, personalized videos for the boys who participated in the camp to remember their trip.

- **Personal work 2022 / 2023 season**

Over my 2023 season I took many opportunities to capture visual content of what was happening at Coronet Peak and Remarkables. For example making short videos for the last night ski of the season and the Burton stash gathering, as well as shooting with my friends and colleagues on many occasions. This helped me to gain plenty of experience shooting out on the hill in all conditions and significantly added to my portfolio of snow and adventure related work.

Technical

Full drivers license
Sony A7Siii, tripod,
Gimbal and microphones.
Macbook Pro
Professional editing software, photo & video

Interests

Cooking, music,
snowsports & adventuring
